SEDITIOUS LIBEL NO. 2.

This fanzine has been produced by Fraser Reid (me) & Douglas Barr.It has been done with the intention of trying to put across my own political beleifs(& Dougies) as well as giving some publicity to smallbands and Also to provide bigger bans with the oppurtunity of a REAL interview.I am an anarchist;many of the bands who have/will appeared are notanarchists And I would like to make this clear.I hate the Exploited and OI! because both talk a load of crap.I agree with all that CRASS have said and probably will say.I hate the N.F. andB.M because they want apolice state worse even than it is now(if that is possible).The above are only my views and not Dougies.

We are still trying to compile aTop 50/20 so please write in as soon as possible.If there is anythjng anybody would like to ask/say please write to:

Yes folks as promised here is the much awaited Chaotic Youth interview.Chaotic youth are ayoung band from Ayr who supported Anti-Pasti at the three Scottish gigs on their recent Last Call tour.This interview was conducted during the week leading up to October 2Ist of this year.....

Q)What is the present line-up?

A)Our present line-up just now is me(Ian) on guitar,Tommy (vocals Ricky(bass),& John (drums).

Q)When were you formed & have you any records coming out?

A) We formed in January of this year, played agig at the local school whicw was pure shit, done ademo in August which got us the 3 Scottish Pasti gigs.We are going to be on a I2"EP with 5 other bands on No Future Records which comes out in December.

Q)Who do you think are the best punk bands around at the moment?

A)I don't really know who I'd say is the best punk bands at the moment are.There's so many good bands about.I don't think I could pick any favourites but I don't see us really influenced by any of todays.I'm sort of more influenced by the '77 bands like Slaughter,Eater,the Adverts etc.

Q)What do you think of CRASS and Anarchy?

A)I think CRASS are a good band and great people to talk to.I think Anarchy is agood idea but not so as it would end up evefy cunt shooting each other cos that's using army kill or be killed and that's pure shit.

Q)What do you think of CND?

A)I think CND are alright but there's a lot of people just use it as the hip thing.

Q)How many songs have you got just now?

A)We've got a set of I3 songs at the moment but i've wrote about another 5 we've yet to rehearse.

Q)What do you think of OI! and Garry bushell?

A)AS for Oi it's just another name for punk which Garry Bushell invented.I prefer it still to be known as punk.

Q)What do you think of wankers like the Exploited?

A)Considering We're going on the British tour with them I don't think i'd call them wankers Ithink the Exploited are agood band.

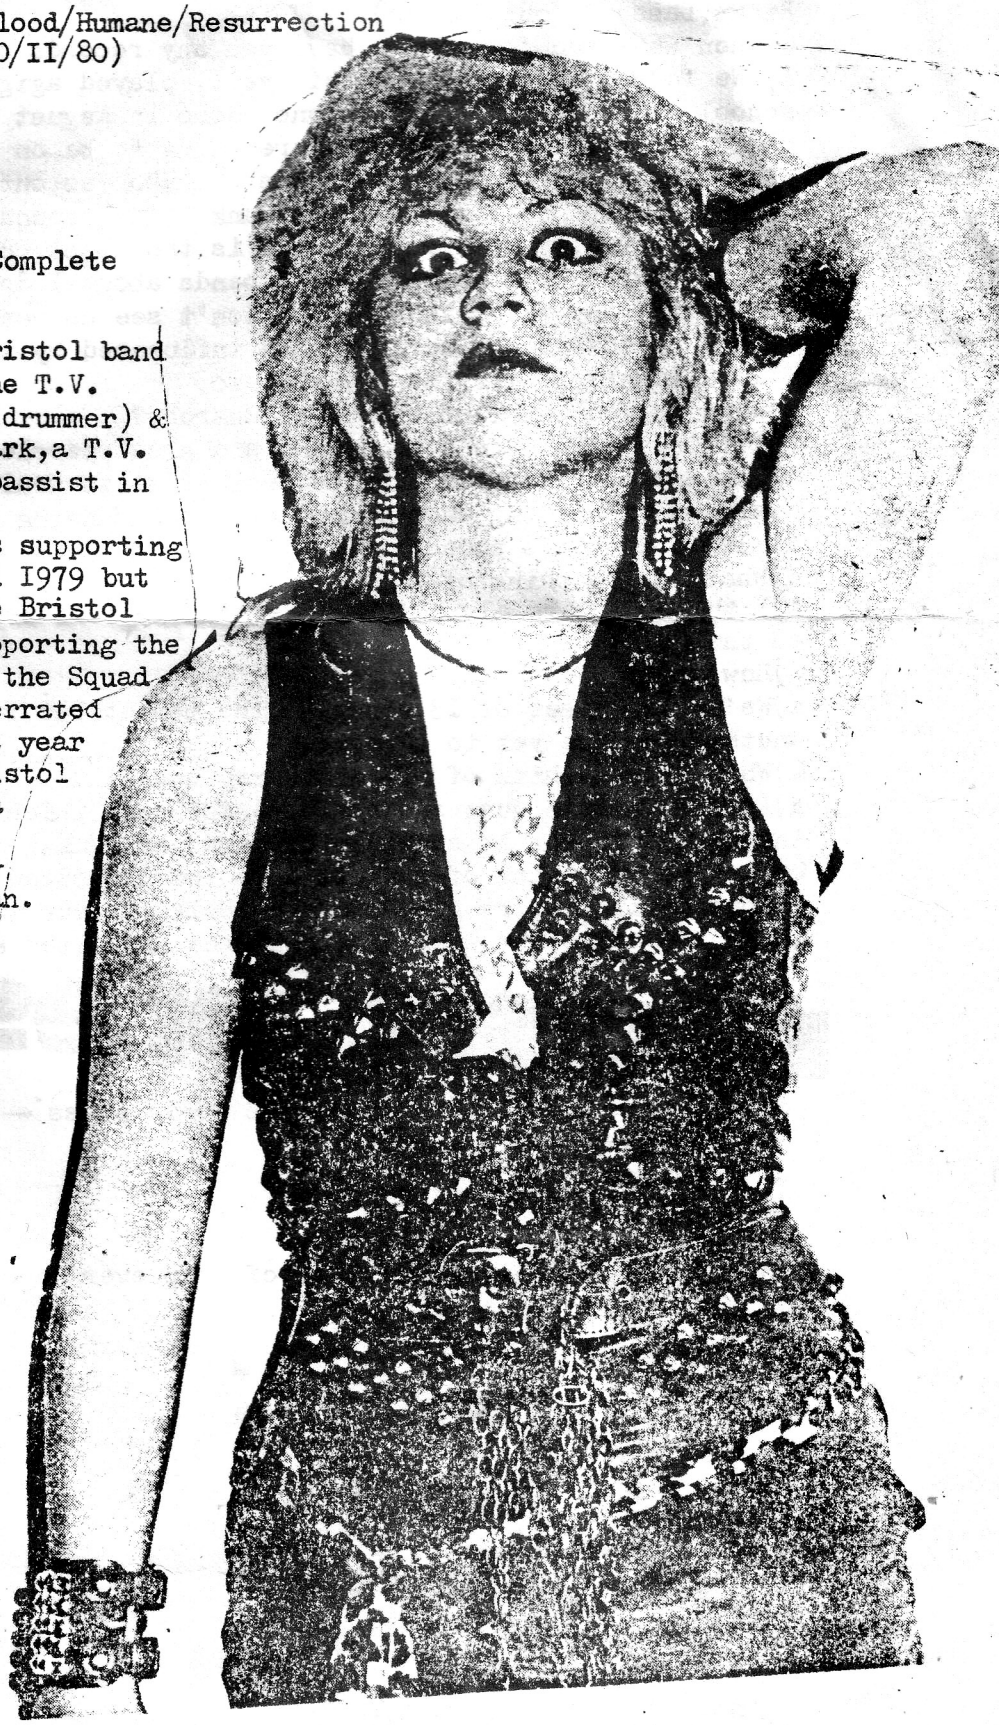
Vice Squads Ist gig was supporting Crisis at Bristol onI2th April I979 but their Ist major gig w.s at the Bristol Locarno on I7th June I979 supporting the Ruts & the Damned.Since then the Squad have sufferdd because of exagerrated tales of violenceat gigs—last year they only played 3 gigs in Bristol but have managed to build up a large following in their home town.All songs are written by Beki Bond(age) or dave bateman.

A Vice Squad club has been formed;details available from Kerry: I2 Fernhurst Road St. George Bristol.

DISORDER

.I don't have mch on Disorder apart from that they also come from Bristol and that Dean (distort the society)"agrees with CROSS on some things but other things are just fucking stupid or I'm too



thick to understand 'em", and that they're not the same band who did "Air Raid". But i do have the lyrics to the (ALMOST legendary)E.P.

TODAYS WORLD

Vomiting green-haired punks
Standing on the dole
No money no clothes
No future no foes
In the city
Or everywhere you go
No bastard wants to know

Well fucking go away

Everywhere you go
People screw you up & dwn
Say what a fucking state
Just stand there & frown
They've got there money
And they've got there life
Well fuck off & let me lead mine

They don't like the pvnks
That's what they Fucking say
It's just 'cos we're a
Fucking threat to society
We all know we are
But who gives a fuck?

SINGLES

EXPLOITED:"DEAD CITIES"/HITLER'S IN THE CHARTS AGAIN"/CLASS WAR"

O.K. so I know they're abunch of wankers but Ido like this single.For a start they give the words on the back and unlike "Sex & Violence,sex & violence,sex& viol g ence ....." they're relevant,especially "Hitlers in the Charts Again". E.g."Be the dancing champ/Of your concentration camp/Keep on moving fast/ Remember Belsen was a gas" or"Army's on the streets/can you feel the heat/Watch the soldier fall/it couldn't happen here".Y'see they DO make sense,for a change. "Dead cities" is definetly the lads from Edinburgh's best offering to date,being much better produced as well."Class War" isn't too bad but definetly not in the other twos class.

Snarling and gobbing and falling around
Ireally enjoy the freedom I've found
My mates beside me on the ground
His ears are bursting with the volume of sound

The cover's not bad either.

DISCHARGE:"NEVER AGAIN"/"DEATH DEALERS"/"TWO MONSTROUS NUCLEAR STOCKPILES"

THIS IS WHAT THEY WANT.Sheer brilliance!I think that this is the"Stokey-pokeys" best single so far.Some might say that it sounds a bit like Motor head but that's just shit. They do seem to have gone abit heavier but it's still as hard & fast as usual.Ditto the lyrics.It's still anti-government/anti-war/anti-nuclear as far as Cal is concerned,and I love it.The lyrics of "Never Again" paint an eerie picture of life-to-be if Mad Maggie gets her way:"Unanswered cries of help,panic, & desperation/Lazed & stricken survivors search for lost families/Choking lust crazy with thirst drinking from poisoned pools & streams"That says it all.

REMEMBER
NEVER

PLAY WITH
FIRE WORKS

As you probably know GBH's debut on vinyl was the excellent I2" 8-track "Leather,Bristles,Studs, & Acne",on CLAY ,which although Ithink sounds a lot like Motorhead,is rather spiffing.Anyway, enough of this foolery,on with the interview.....

Q)What is the present line-up of the band?
A)Colin-vocals Jock-gui ar
Boss-bass Wilf-drums
Q)When were you formed?
A)Around March-April I980
Q)You sound very like Motorhead,does all of the band like them?
A)I,(Wilf) am the only one who particularly likes them although the others like some of their stuff.Their is no real Motorhead influence in our music.
Q)What do you think of the discharge/cross ideas of anarchy & peace?
A)Although we all probably have our own political views I think we all agree with what these bands are trying to say
Q)Have you any plans for a major tour supporting a bigger band?
A)Not really , although recently the Subs have supported & are in Birmingham soon to support the Damned.We are having enough difficulty booking gigs of our own at the moment
Q)Have you any new records coming out in the near future?
A)Weare recording a 7" single for New Year release The A-Side will probably be "No Survivors".
Q)What do you think of CND?
A)Like I've said, we all have our own political views but the 4 of us would be the last people to want to see the world blown out of the universe.Personally I think they do a good job as it is important that there is an organised body to remind the thick politicians what the majority of people in this country want to see.
Q)What are your favourite punk(or otherwise)bands?
A)Speaking for the band as a whole I would say the Damned,Discharge & U.K. Subs rate highly among us but we all have individual tastes really.
Q)What do you think of oi! & Garry Bushell?
A)We all think Gaz Bushell's a wanker.He just uses Sounds to put over his own political views & to try & prove that he knows how to use words with more than 4 or 5 letters . Besides this ,half of the bands who've done well after coverage from him are not even above average anyway.After saying all this we are supposed to be doing an interview with him in the not to distant future,but we'll still try & speak our mind.As for OI!,it rivals 'New Romantisism'&'mod' as the most pathetic cult ever brought out by the music press.Besides the fact that it's mostly London orientated,it's just a cheap trick by bushell to try and class skinheads,straights,& soccer fans as punk bands when they haven't the guts to go the whole way.Despite what Bushell says,I think if we ignore OI! it will go away & die a slow death. (Most OI! bands are shit anyway)
Q)What do you think of wankers like the Exploited?
A)We all Have our own personal tastes but obviously Jock's mad about 'em cos he comes from Edinburgh.I suppose we all like their music.

SINGLES REVIEW

ANTI-PASTI "SIX GUNS"/NOWS THE TIME"/CALL THE ARMY(I'M ALIVE)

Quite a catchy little tune even if it does come from a band who are brilliant live but aren't exactly inspiring on record.This single is more like the L.P. than the first singles and as such I hold it in high regard.Anti-Pasti are getting bigger & bigger & I think "Six Guns" will probably go straight into Top 40 and that would be very unfortuneate for them,since it would herald the start of another notorious sellout.Aside of all this mental masturbation I think it is a great single and well worth £I.IO.The more I hear it the more I like it.

ANNIE ANXIETY "BARBED WIRE HALO"

Garbage.That says it all .Apart from the single being chronic the sleeve is covered with ridiculous arty-farty titbits like "horror is the denominator,but life is the question".What kind of shit is that?What the fuck is it supposed to mean?Some of you out there might take it for granted that I also hate CROSS but I dont,Ilove them,although the last L.P.was afected in the same way as this single, and the lyrics (unusually) weren't up to much eitherbut at least CROSS have some good hard'N'fast music,unlike this shit.Having said all that I hope miss Anxiety goes far because even if her head is in the wrong place,her heart obviously is.
